

Brooks Swim School - Swimmer Pathway

This pathway has been designed to meet our aim at Brooks Swim School; to create competent swimmers with the skills necessary to be as safe as possible in a variety of water situations. Due to the ongoing Covid restrictions we have had to reduce our current offerings, but hope to expand these again in the future.

Beginner classes build a solid foundation of skills.

Improver classes allow children to start to become confident in deep water.

Advanced classes move from Stages to Water Skills and Water Safety. This allows deep water skills and confidences to be developed as well as learning to stay safe in a variety of water situations, rather than a focus on solely perfecting the strokes.

Distance awards are completed alongside the scheme as and when children are ready. Due to Covid restrictions and pool availability, currently we are only able to assess the shorter distance awards - up to 200m.

For swimmers that had already completed a significant part of Stage 5 (or higher) we will continue to assess against Stages 5 – 7, alongside the new pathway.

Swimmers working in Stage 4 or under will move onto the new pathway as detailed to the left.
